FAMILY & CAREGIVERS**

**LOWER READMISSION RATE AND
UTILIZATIONS WITH REAL-TIME CARE
PLANNING**

**CONNECT ACROSS THE NETWORK
OF CARE AND MAINTAIN
CONTINUITY**

**IMPROVE HEALTH OUTCOMES
AND SATISFACTION WITH
MEDICATION AND ACTIVITY REMINDERS
& MEDICAL DEVICE DATA TRACKING**

**MAXIMIZE BILLABLE OPPORTUNITIES
AND REDUCE COST OF CARE WITH
OUTCOME AND INTERVENTION
REPORTS**

REDUCED COST OF CARE FOR IMPROVED EFFICIENCIES

Real-time reporting and trending to benchmark performance and drive improvements in care delivery.

Easily and effectively monitor patient progress in real time, with threshold alerts, task management, messaging and video conferencing.

PERFORMANCE BENCHMARKS

Improve workflow efficiencies and reduce cost of care per patient by 25%, resulting in savings of up to \$2,500 per patient per month.

Reduce readmission rate with personalized care planning and assessments, tele/video connectivity, and reminders for treatment, appointments, and medication.

IMPROVE OUTCOMES & SHARED DECISION MAKING

Improve appointment and medication adherence. Track care plan progress in real-time and send & receive patient assessments.

Review patient-generated health data and social determinants. Connect with community resources, family and caregiver support.

THE DIARY CAREPRO™

REMOTE CONNECTED CARE SOLUTION

Enabling healthcare teams to reach optimal outcomes and reduce costs without burdening IT or purchasing proprietary hardware. Based upon consumer mobile devices, The Diary has been featured by the Apple App Store as a leading personal care application.

THE DIARY CAREPRO FEATURES – SUPPORTING THE CONTINUUM OF CARE

www.thediary.com/carepro/

The Diary Corporation partners with the most competent and respected security organizations, including Apple's CareKit framework and Tresorit's ZeroKit development tools, which provide end-to-end encryption and secure authentication.
